

Perfectly formed for the perfect cut

FALCON preformer

- Brings natural products into form or shape
- Optimizes cut and gain
- Automatically identifies the moulds
- FALCON evolution machine can be upgraded
- Different moulds for various applications are available

Form your cost

TECHNICAL FEATURES

infeed cross-section of product W x H (mm) (inch)	depending on application, max. 350 x 180; 13 ²⁵ / ₃₂ " x 7 ³ / ₃₂ "
Max. infeed length (mm) (inch)	700; 27 ⁹ / ₁₆ "
Housing dimensions:	
W / H (mm) (inch)	1353 x 2600; 53 ¹⁷ / ₆₄ " x 102 ²³ / ₆₄ "
Length FALCON evolution with belt (mm) (inch)	6100; 240 ⁵ / ₃₂ "
Connected load (kW)	17
Applications	beef, pork, veal
Weight (kg)	2200
Product specific accessories	optional

* Average fish size 4 kg; length 670 mm
** Optional electricity available

Form your cost – with the FALCON preformer you optimize both the cut and your yield by simply bringing natural products into form or shape, and feeding them automatically into your cutting process – this is what the FALCON preformer offers you. Different moulds for various applications are available, which can be easily exchanged without the use of tools. The machine automatically identifies the moulds due to the RFID Technology. The preformer integrates into one forming and slicing solution, linked to your stored product codes - easily accessible via your central HMI. And: Your existing FALCON evolution machine can be upgraded by us.
